

Renault Key Programmer by OBD V 2.5

With Renault/Dacia/Opel/Nissan K-Line + CAN Key/Card Programming Device (Version 2.5) you will be able to program new keys or cards for Renault based vehicles via OBD-II socket which are using Philips Crypto II (known as Hi Tag 2, ID46, PCF7936) transponder. Device is able to recognize type of the car automatically. There is no need to choose anything.

No more need of Immobilizer pin code as the device will read the pin code from the Immobilizer and will enter it directly.
